

BARGE - Arctic Dock 400

Special features of Arctic Dock 400 include concrete deck with steel runners, spud wells with spuds, bow ro-ro ramp and fantail extended stern. This barge is a versatile unit serving customers in a range of semi-permanent infrastructure and construction site locations.

At McKeil Marine we approach each cargo movement and every service with the promise to deliver innovative marine solutions.

Since 1956 we've pushed the boundaries, becoming one of the foremost marine service providers in Canada. Customizable transportation and project solutions including marine transportation, marine construction, project cargo, salvage, towing and ship assist are available throughout the Great Lakes, St. Lawrence Seaway, East Coast and the Canadian Arctic.
