

Special features of the DW 100 include the Sectional Barge Construction that allows it to be transported in eight(8) Truckloads. Four(4) Spuds that can be outfitted with Sand Pads make this unit capable of operating in shallow and deep waters. A reliable and versatile unit, the DW 100 serves the Project fleet.

At McKeil Marine we approach each cargo movement and every service with the promise to deliver innovative marine solutions.

Since 1956 we've pushed the boundaries, becoming one of the foremost marine service providers in Canada. Customizable transportation and project solutions including marine transportation, marine construction, project cargo, salvage, towing and ship assist are available throughout the Great Lakes, St. Lawrence Seaway, East Coast and the Canadian Arctic.
